

Stainless-steel • Can't be eaten • Can't be beaten

The RodeXit™ proofing seals are:

- Highly rodent resistant.
- Easy and fast to install.
- Durable.
- Labor-saving and cost-effective.

The RodeXit proofing seals are made of heavy-duty Santoprene™ with an embedded barrier of 10 solid stainless-steel wires:

The embedded steel barrier stripped from Santoprene™

They can be used for pest proofing and weather proofing:

- Threshold gaps of hinged swing doors.
- Astragal gaps of double swing doors.
- Stationary gaps.

Please visit our website www.rodexit.com where you can find much more information, watch videos, and find suppliers.

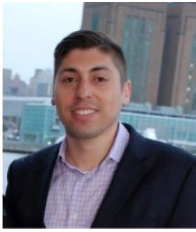

Email bvr@rodexit.com if you have any questions.

Don't forget to read the interesting testimonials on the backside.

Stainless-steel • Can't be eaten • Can't be beaten

You can read the full testimonials on www.rodexit.com/references.
