

Stainless-steel • Can't be eaten • Can't be beaten

## Price List & Order Form

April 2019

### 1. Delivery terms and sales taxes

Unless nothing else is agreed, the prices are DAP-prices (Incoterms). Delivery at your doorstep is included. VAT, sales taxes and import tariffs collected in your country are not included.

### 2. Promotion discounts

We offer the following promotion discounts on your first order of **RodeXit** products (not counting orders for samples):

- 4 USD discount per yd **RodeXit Wave** or **RodeXit Straight** proofing strip i.e. 108 USD discount per 27 yard / 25 m coil.
- 10 USD discount per set of 2 **RodeXit Block** mounting tools made of brass.

The promotion discount on the proofing strips can be combined with the below quantity discount. That will result in a combined price reduction of 7 USD per yd corresponding to a 189 USD reduction per 27 yard / 25 m coil and a 756 USD reduction per box with 4 coils.

If your order qualifies for a promotion discount, you will have to fill in and subtract the promotion discount in the below order form in order to get the discount.

### 3. Quantity discounts

When you order a box with four 27 yard / 25 m coils of **RodeXit Wave** or **RodeXit Straight** proofing strips you will automatically get a 3 USD quantity discount per yd corresponding to 324 USD discount per 4 coils. Further quantity discounts can be arranged, if you plan to buy substantially more than 1 box with 4 coils. Please ask for a quotation, if you do.

We can unfortunately not offer you any discounts on the **RodeXit Shield** protection strips. That is because our buying price and the shipping cost are so high, that the list prices barely cover our costs.

#### 4. The favorably priced starter kit

You can order a starter kit at a very favorable price. The kit consists of 1 coil of 27 yard / 25 m WAVE proofing strip, 1 coil of 27 yard / 25 m STRAIGHT proofing strip, 5 SHIELD protection strips with mill finish, 5 SHIELD protection strips with # 4 brushed finish and 1 set of 2 BLOCK mounting tools. The price for all this is 1,300 USD. You save 490 USD. You can only order a favorably priced starter kit once.

#### 5. Price list and order form

You can order our products by

- completing the below order form, and emailing the completed form to us
  - e.g. attached as a pdf or as a photo **OR**
- by sending us an email with all the relevant information.

The below listed price for a box of 4 proofing strip coils is the price after subtraction of the quantity discount.

Please note, that the promotion discounts only apply to your first order, and that you can only order a favorably priced starter kit once.

If you want to order a starter kit, you shall only fill in the amount 1,300 USD in the lowermost right corner of the order form.

If you want to order samples of the RodeXit **Wave** and/or the RodeXit **Straight** proofing strips, you will have to use the samples order form. It can be downloaded from the website [www.rodexit.com](http://www.rodexit.com).
