Carpet Trims Recommended for Use as Mounting Strips

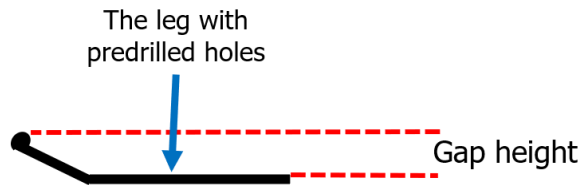

May 2021

(periodically updated and uploaded on www.rodexit.com)

The carpet trim producers may from time to time change the specs without notifying us, so if any of the specs aren't completely up to date, please let us know by sending an email to bvr@rodexit.com.

All the recommend carpet trims are of the angled flat bar type and come with predrilled screw holes.

“Low Carpet Trims” have a gap height of 3/16 to 1/4 in (4 to 6 mm). “High Carpet Trims” have a gap height of 5/16 to 0.4 in (8 to 10 mm). The gap height is measured in this way:

Low Carpet Trims – 3/16 to 1/4 in (4 to 6 mm) Gap Height

*) SKU # = Stock Keeping Unit number

Brand	Available in	SKU #* / model #	Width	Length	Color	Smooth / Fluted / Hammered
